### CENTRAL RESEARCH LABORATORY SERVICES PRICE LIST

S/N	Laboratory Service	Unit Prize (₦)
1	Gene amplification by PCR	5,000:00
2	PCR Clean-Up	4,000:00
3	Cycle Sequencing	15,000:00
4	Cycle sequencing Clean-Up Beads/magnetic Rack system OR X Terminator/SAM Solution	5,000:00
5	Capillary electrophoresis	5,000:00
6	cDNA synthesis by Reverse Transcription	5,000:00
7	qPCR SYBR Green with melting curve analysis	6,000:00
8	qPCR Taqman Probe chemistry Clientele probe suppl CRL probe supply	2,000:00 10,000:00
9	Genomic DNA extraction per sample using NIMR BIOTECh kit	5,000:00
10	Genomic RNA isolation using NIMR BIOTECH Kit	5,000:00
11	ELISA assay per plate of 96 samples with kits provided by the client	50,000:00
12	PBMC isolation per sample	7,000:00
13	GC-MS analysis with sample preparation	15,000:00
14	HPLC analysis with sample preparation (Client will discuss and negotiate on standards for quantitation)	15,000:00
15	Heavy metal analysis on ICP-OES	15,000:00
16	Bioinformatics analysis Gene Consensus sequence (FASTA) (Free if N25,000 is paid for single strand gene sequencing)	5,000:00
17	Bacteria Genome Sequencing on MinION Client purchase library prep kit and FLOW Cell (R.10 series)	10,000:00
