**The Principal Investigator,
Emory Nigeria HIV Research
Training Program**

Dear Sir,

LETTER OF SUPPORT EN-RTP APPLICATION: ANITA MOFIYINFOLU DABAR

I write in support of Rikikia Thomas's application for the Emory-Nigeria Research Training Program. I am delighted to inform you that I support her proposed research study titled: Uptake of HIV Counseling and Testing among HIV/TB co-infected Women facing Malnutrition in Conflict Situations: A Needs Assessment Survey of Internally Displaced Persons in South-East Nigeria."

Rikki is currently a Research Fellow at the Department of Public Health. She is a skilled researcher and eager to have a good track record as an early career candidate. I strongly believe the skills she will gain through EN-RTP will be useful in her career progression.

I confirm my preparedness to co-supervise and co-mentor her in the execution of the proposed research. I am confident, with the resources available at Lead City University, Ibadan, she can achieve her project objectives. I commit to working with her to actualize her research and career goals.

I, therefore, recommend her application for your favorable consideration. Thank you.

Best regards,

Rosemary Madaki, PhD
